SRI LEKHYA PULLURU

Java Full stack Developer | pullurusrilekhyauco@gmail.com| LinkedIn | GitHub

SKILLS

- **Full Stack Development:** Java, Spring Boot, Spring MVC, Microservices, Angular, React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Node.js, Express, REST APIs, React Native, Kotlin, XSLT, XML, JSON.
- **Cloud & DevOps:** Microsoft Azure (AKS, DevOps, Azure Monitor), AWS (Lambda, S3, EC2, DynamoDB, CDK, CloudWatch), Docker, Kubernetes, Helm charts, Git, GitHub, GitHub Actions, Jenkins, CI/CD, Infrastructure as Code, maven.
- **Databases:** MySQL, Oracle SQL, MongoDB, DynamoDB, PostgreSQL
- **Testing & Quality:** JUnit, Mockito, Jest, Postman, Code Reviews, SOLID Principles, Design Patterns
- **Observability & Practices:** ELK Stack (Elasticsearch, Logstash, Kibana), Log4j, Agile/Scrum, SDLC, System Design
- **AI & Generative AI:** Azure AI Foundry**,** Azure Content Understanding, OpenAI, LLM APIs, AI agents, Retrieval-Augmented Generation (RAG), Prompt Engineering, Semantic Search, AI-assisted Applications.

WORK EXPERIENCE

Software Engineer Intern April 2026 – Present

Tiruven Inc. | Irving, TX

- Developed scalable full-stack enterprise applications using Java, Spring Boot, Angular, JavaScript, HTML, and CSS, building UI features and backend REST APIs integrated with ERP systems
- Worked with React / TypeScript-based form workflows, implementing data validation, reusable UI components, and API integration to support business processes.
- Troubleshoot application issues using ELK Stack (Elasticsearch, Logstash, Kibana) for log analysis and monitoring, contributing to approximately 30% reduction in debugging time through faster issue identification and root-cause analysis.
- Contributed to an AI-assisted enterprise document search feature using Python, Azure OpenAI, Azure Content Understanding, Elasticsearch, and RAG, supporting document ingestion, processing, retrieval, and integration with Azure AI Foundry Agent workflows.

Teaching Assistant & CS Tutor August 2024 – December 2025

University of Central Oklahoma | Edmond, OK

- Mentored 100+ students in Data Structures, Algorithms strengthening debugging and problem-solving skills.
- Reviewed Java/C++ code and guided performance optimization, improving code quality, efficiency, and scalability.

Senior System Engineer March 2021 – August 2023

Infosys Limited | Bangalore, India

Client: Boeing, Aviation Systems Project

Awards Received: **Rise Award Eureka and Insta Award**

- Engineered and enhanced Java/Spring Boot microservices for Boeing aviation systems, implementing cloud modernization initiatives on Microsoft Azure, containerizing Java applications with Docker and deploying services to Azure Kubernetes Service (AKS) using Kubernetes/Helm, improving application scalability and deployment consistency.
- Delivered full-stack features across backend and frontend, building object-oriented Spring Boot, Spring MVC and REST APIs, API integrations, Batch Processing, PDF generation with clean coding practices alongside Angular and reusable JavaScript UI components for mission-critical, production-grade aviation systems.
- Improved API response time by 40% and cut server/infrastructure costs by 15% by engineering and deploying legacy java applications on Microsoft Azure, integrated with existing enterprise systems.
- Resolved 10+ critical performance bottlenecks by leading performance tuning, debugging code flow, root cause analysis, profiling code and optimizing database queries to significantly improving application responsiveness across distributed systems.

- Collaborated with cross-functional teams following Agile/Scrum framework and Azure DevOps integrating CI/CD pipelines, maven build, Git, GitHub and automated testing to support containerization, orchestration, and enterprise delivery.

EDUCATION

Master of Science in Computer Science *Jan 2024 – Dec 2025*
University of Central Oklahoma | Edmond, OK | GPA 3.9/4.0
Awards Received: *President's Honor Roll for two semesters*
Coursework: Machine Learning, Algorithms, Cyber Infrastructure & Cloud Computing, Artificial Intelligence, Software Engineering, Application Database

Bachelor of Technology in Computer Science and Engineering *Aug 2016 – Sep 2020*
Sri Venkateswara University | Tirupati, India | CGPA 7.88/10

PROJECTS

1. **Mental Health Support App (MERN Stack)**
   Skills: MongoDB, Express.js, TypeScript, React Native, Node.js, Axios API, AWS S3
   Designed a mobile-first multi-tier architecture using React Native (frontend) and Node.js Express (backend), MongoDb focusing on modular code and secure data storage for files using AWS S3 exposing secure REST APIs consumed by a React Native client, implementing authentication, encryption, and AI/LLM-based content moderation, validated through extensive unit testing.
2. **OCR-Based Mobile Nutrition Recognition App**
   Skills: Kotlin, Google ML Kit, AWS Textract, Python, OpenCV
   Built an Android app using Google ML Kit OCR to extract nutritional facts from packaging in real time; built an alternate AWS Textract pipeline using OpenCV preprocessing, achieving 94% accuracy recognizing expiry dates.
3. **Serverless Attendance Application**
   Skills: AWS Lambda, S3, Rekognition, API Gateway, CDK, CloudFormation
   Developed a serverless, event-driven web application automating classroom attendance via facial recognition, using Infrastructure as Code (AWS CDK/CloudFormation) and GitHub Actions CI/CD to cut deployment time by 40%.
4. **Reminder Webapp**
   Skills: Firebase, NoSQL, Cloud Functions, Google Job Scheduler, JavaScript, Bootstrap
   Designed an event-driven notification system using Google Cloud Functions and Job Scheduler to trigger asynchronous, time-based, and recurring email reminders for users.

CERTIFICATIONS & TRAINING

1. Microsoft Certified: Azure AI Apps and Agents Developer Associate (AI-103), Microsoft, Oct 2026
2. Microsoft Azure Fundamentals (AZ-900), Microsoft, May 2022
3. Machine Learning with Python, Coursera (IBM), Jan 2020
4. Data Analysis with Python, Coursera (IBM), Sep 2020
5. Building Web Applications in PHP, Coursera (University of Michigan), Jun 2020
